Accessing the Analysis Report

For a deep dive into a student's performance on a specific task, click **'Report'** next to any chat session. This report provides a comprehensive breakdown, including an overall score and separate scores for different skills.

You can use the **'Key insights'** and **'SWOT Analysis'** sections to plan next steps for a student or to inform comments you write for progress reports. These features show you exactly where a student stands in terms of performance and understanding.

Reviewing the Original Conversation

To see the complete back-and-forth conversation, click **'View original conversation'** in the top right corner. This allows you to see how the student interacted with the AI and exactly how their responses compare to the correct answers.
