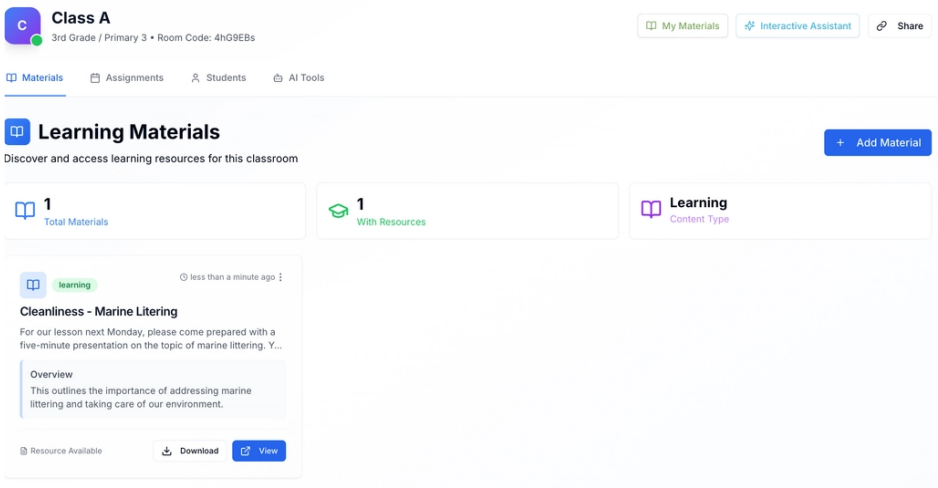
Uploading Learning Materials

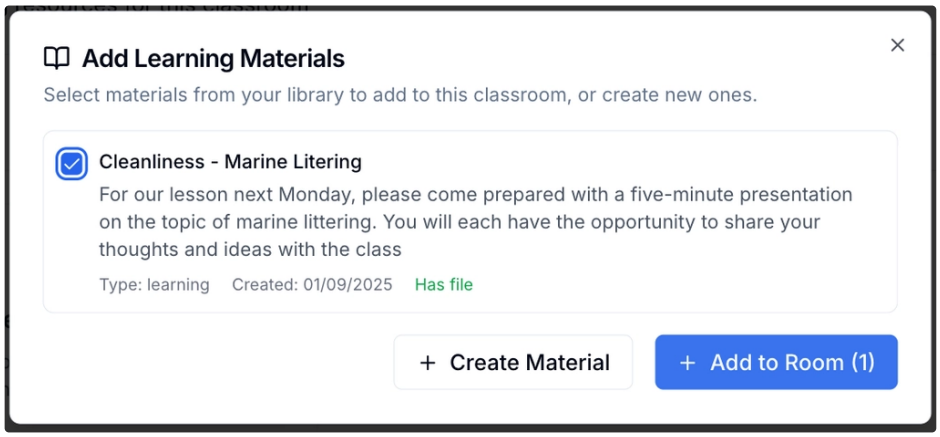
This feature allows you to easily upload and assign content for your students. You can use this for anything from pre-lesson tasks and homework to extra reading to help facilitate learning. You can upload almost any common file type, including PDFs, images (PNG, JPG, JPEG), PowerPoints (PPTX), and Word documents (DOCX).

1. Preparing and uploading materials

Click ‘Add Material’ on the right side of the screen → Select and upload your file → Add a clear Title and a brief Description so students know what the material is for



2. Assigning materials to your class

Click **'Add Material'** again → Select the material you just uploaded from your list → Click **'Add to room'**.


*To review a document at any time, simply click the **'View'** button*
